

Name: <b>Esme Tackaberry</b>	Foundation	Unit 1
------------------------------	------------	--------

Task	Comment	T+ / T-
History of Photography	This section needs to be expanded making reference to the early photographers such as Henry Fox Talbot. You should also make reference to the first photographs taken	T-
The Camera Obscura	Where is this work? - Images and written account needed.	T-
Photograms	Good work your images are strong but I would have liked them to be bigger as they should be the main focus of this section. The written account is good to improve the section you should show examples of other photographers that use photograms in their own visual practice.	T-
The darkroom	Well done a good section that shows a strong understanding of how to use the darkroom.	T-
The Slr Camera	Where is this work?	T-
Aperture	This section is good and demonstrates a sound understanding of aperture. To improve it I would like to see a diagram of different apertures (download from the internet) Also a series of portraits showing people in a line taken at different apertures to demonstrates different depths of field.	T-
Shutter speed	Well done a great set of images the water balloon is especially strong well done. The description is also strong to improve the section you should make reference to other artists that have used different shutter speeds in their visual practise.	T-

WAG:C	Target Grade:A	Comment: Some good work but please go back over you work and make the necessary improvements to the project.
